

PASTEUR4OA

PASTEUR4OA:

Open Access Policy Alignment Strategies for European Union Research

PASTEUR4OA supports the development and reinforcement of Open Access policies and strategies that are aligned with the EU and the Horizon 2020 policies at national, institutional and research funder level across Europe, in view of facilitating international research.

Development and/or alignment of OA policies

(as shown in the following examples)

- **Institutions:**

- University of Luxembourg,
- Rudjer Boskovic Institute,
- University of Latvia,
- University of Malta

- **Funders:**

- Lithuania Research Council,
- Estonia Research Council,
- Luxembourg National Research Fund

- **National:**

- Belgian Federal Science Policy Office OA Policy,
- Slovenia National Strategy for OA,
- Cyprus National OA Policy,
- Norway National OA policy

The Knowledge Net: a Europe-wide network of centres of expertise (Key Nodes)

Through a network of 33 national expert organisations – the Knowledge Net – PASTEUR4OA created a regular flow of information from national to regional and European level (and vice versa) and a forum for discussion and exchange of ideas and best practices in promoting Open Access in the EU

Achievements:

Advocacy resources tailored to specific stakeholder needs

- Policy Guidelines
- Case Studies
- Thematic Resources
- Briefing Papers
- Presentations
- Visualization tools

Workshops for policymakers from universities & research funders

The workshops informed policymakers about effective Open Access policymaking and fomented action towards improving coordination in the development and alignment of Open Access policies in Europe

- 10 workshops
- 5 European regions
(North, South East, South West, East, North West)
- 33 European countries
- 255 participants
